-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 18 September 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Objections

Claims 21 and 30 are objected to because of the following informality: These claims each recite

"...wherein the gas includes a gas of C_xF_y (x and y are natural numbers) or; NF_3 , O_2 , Cl_2 , or a halogen containing gas of HBr ."

In general terms, this limitation can be characterized as being directed to a gas that includes A or B or C, wherein A represents the claimed C_xF_y and B represents a NF_3 , O_2 , Cl_2 mixture, and C represents "a halogen containing gas of HBr ". However, the examiner does not believe that the foregoing characterization is necessarily consistent with applicant's intention.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13, 14, 16-21 and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "vicinity" in claim 13 is a relative term that renders the claims indefinite. The term "vicinity" is not defined by the claims, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Art Unit: 1792

Claim 13 recites:

"a length in any direction of the area of the entire surface of the high frequency or grounded electrode, which is arranged in the position opposite to the plasma source via the object to be processed, is smaller than a length in any direction of the area defined by the perimeter of the surface of the plasma source that is superposed on the object to be processed..."

It is unclear if the recited "length in any direction" is limited to a length having as its endpoints, points that are also part of the recited perimeters. It appears any length within the defined perimeter could be used against this claim limitation.

Claims 21 and 30 each recite: "a halogen containing gas of HBr". This limitation raises questions because HBr is itself a halogen gas. Is the noted limitation directed to a mixture of HBr with another halogen containing gas?

Claims 14 and 16-20 are included in this rejection merely because of their dependency upon rejected claim 13.

Response to Arguments

Applicant's arguments, filed September 18, 2007, with respect to the applied prior art, are persuasive. Therefore, the prior art rejections have been withdrawn.

Allowable Subject Matter

Claims 22 and 24-29 are allowed.

Claims 13 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claim 30 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

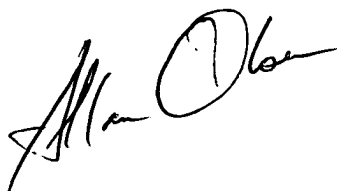

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Allan Olsen whose telephone number is 571-272-1441. The examiner can normally be reached on M, W and F: 1-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Parviz Hassanzadeh can be reached on 571-272-1435. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
